The post of Deputy General Manager – Digital Transformation will be part of the senior management team and accountable for leading the Process Automation and the Digital Transformation of the company reporting to Chief Information & Digital Officer.

Job Duties & Responsibilities;

- Initiate the digital transformation and process automation, complying with the IT industry best practices and standards
- Lead three major functions including Software Development, Business Systems Support and Quality Assurance, and the Program Management Office of the ICT Department
- Build up and lead the digital team of Life and General insurance categories covering the areas of Mobile Application, Research & Development, Motor, Non-Motor and Life to ensure the business processes are continuously digitized
- Develop new value-adding products and services for customers to gain competitive advantage
- Work with cross-functional teams to gather requirements and dependencies
- Work closely with the leadership team to report on key risks and opportunities
- Develop and communicate strategic recommendations about the best way forward at regular intervals

Candidate Profile;

- 15 years of experience in leading digital transformation/innovation projects, or in an operational leadership role in the ICT industry with minimum 10 years' experience in a senior managerial position
- Masters or Bachelor's Degree from a recognised university or full professional qualification in Information Technology
- A track record of successfully leading multiple large-scale projects and teams in a complex and dynamic environment
- A strong desire and proven ability to make things happen across various teams
- Experience in driving cross-functional change in the organisation
- Strong problem-identification and problem solving abilities
- Outstanding communication and interpersonal skills
- A strong technical foundation including front end web and mobile applications as well as ERP backbone
- Preferably age below 50 years
