WE ARE

**HIRING!**

PROFESSIONALS NEEDED

## ✓ Database Administrator - Telecom Sector

We are looking for a talented and experienced Database Administrator (DBA) to manage and maintain our critical database systems in the telecom sector. The ideal candidate will have experience with telecom database systems and be able to ensure the performance, security, and availability of our databases. The Database Administrator will collaborate with cross-functional teams to develop, optimize, and support our database infrastructure.

### Minimum Requirements

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Minimum of 3 years of experience as a Database Administrator, preferably in the telecom sector.
- Strong knowledge of database technologies, such as SQL, Oracle, PostgreSQL, or NoSQL.
- Experience with telecom-specific database systems is highly desirable.
- Familiarity with database design, data modeling, and normalization.
- Proficient in SQL and database management tools.
- Strong analytical and problem-solving skills.
