

CONTENT WRITER

(LEARNING MANAGEMENT SYSTEM)

Would you like to work in an international company?
Do you have the experience in research & writing?
Then, we are looking for you.

Our vision is to build an engaging, comprehensive, and professional Learning Management System (LMS) for the global group. The MAKEEN Energy LMS will make it possible for our employees, no matter where they are, to tap into training modules online and get instant learning.

Your Primary Tasks

You will be assigned to create content for the training modules with our remote LMS team. The topics could range from Engineering to Business related matters. Your primary tasks will include the following:

- Make extensive research with use of videos, recordings, PowerPoints, interviews, technical documentations and make content articles based on that.
- Assist to create story boards with project manager.
- Creating attractive enjoyable training modules on LMS platform to our business communication group.
- Develop user evaluation schemes for specific training modules (e. g: Interactive quizzes, tests, and final examinations)
- Review training modules with the team before publishing them on the LMS.

Functionally, you will report to the Head of Group People & Culture (Denmark), and locally you will report to the Head of Design and Technical Communication. You will sit with our professional technical communication team in Sri Lanka, with whom you may share knowledge and get support.

Email your application to mah@makeenenergy.com with some examples of your publications/drafts (applications without any work examples will be rejected).

- Application closing date: 01-09-2023
- Workplace: MAKEEN Energy Manufacturing Centre, Udupila- Delgoda, Sri Lanka
- Job type: Permanent

Your Profile

We are looking for a person with the following competencies and behavior:

- Proven track record in writing scientific/ technical articles for journals, magazines, social media, and e-learning management systems.
- Excellent English writing skills with Technical and engineering backgrounds are also welcome.
- A flair for combining text and design, with e- learning principals will definite be an advantage.
- You will be exposed to our global working environment with diverse nations.

The teamwork in MAKEEN Energy is characterized by transparency, responsibility, respect, and passion. Therefore, it is important that you can and wish to support such a working environment.

We offer you.

- Excellent working environment with exposure to a global team.
- Opportunities to enhance your knowledge, skills, and exposure (overseas training).
- A remuneration package on par with your performance.
- Package of employment benefits applicable to our company.
