

# JOIN THE MOST AWARDED BANK IN SRI LANKA

With an enduring vision of being the most technologically advanced, innovative and customer friendly financial organization, we, the Most Awarded Bank in Sri Lanka, continue to progress steadily while being the first Sri Lankan bank to be listed amongst the Top 1000 Banks in the World.

Our unparalleled record of success is supported by an unmatched suite of digital offerings and superior standards in service, stability and performance. We are poised to ascend to even greater heights in the near future.

## Data, Business Intelligence (BI) and Reporting Analyst, Card Center – Product Management Unit (Fixed Term Contract)

### Job Profile

- **Key Data Analyst** : Act as the primary data analyst for Card Centre use cases on special AI-based consultancy initiatives
- **Data Analysis** : Analyze debit, credit and QR transaction data to generate insights on card usage, trends and customer behavior
- **Tableau Dashboards** : Develop and maintain Tableau dashboards to visualize data and provide actionable insights
- **Data Mining** : Perform data mining to identify patterns and correlations related to Card Centre activities
- **Reporting** : Generate detailed analytical reports to support decision-making processes for Product Managers and Senior Management
- **Collaboration** : Collaborate with internal teams to understand data needs and provide accurate and timely data analyses
- **Data Integrity** : Ensure data accuracy and integrity by implementing and maintaining data quality checks
- **Strategy Support** : Support the development and implementation of data-driven strategies and initiatives
- **Stakeholder Communication** : Present findings and insights to stakeholders in a clear and concise manner
- **Industry Awareness** : Stay updated with industry trends and advancements in data analytics and business intelligence

### Applicant's Profile

- Bachelor's degree in Data Science, Computer Science, Statistics, Business Analytics or a related field. A Master's degree is an added advantage
- Minimum of two (02) years of experience in data analysis, business intelligence or a similar role within the financial services industry
- Proficiency in common tools such as Excel and data visualization platforms like Power BI and Tableau.
- Strong analytical and problem-solving skills with the ability to interpret complex data sets
- Excellent communication and presentation skills, with the ability to convey complex data insights to non-technical stakeholders
- Strong attention to detail and commitment to data accuracy
- Ability to work collaboratively with cross-functional teams
- Knowledge of regulatory requirements and industry standards related to data privacy and security

The successful candidate will be recruited on Fixed Term Contract (FTC) and will be provided with an attractive remuneration package, commensurate with benchmarked financial institutions.

**Interested candidates are invited to apply for the position, all applications should be routed through our corporate website.**
