

TERMINAL ENGINEER

Litro Gas Lanka Ltd, a trusted brand with over 150 years of excellence and more than 80% market share. As a key player in the oil and gas industry, we are seeking a **result-oriented, self-motivated male** for the role of **Terminal Engineer**.

Key Responsibilities:

- Oversee maintenance of onshore & offshore assets, equipment, and tank farms.
- Troubleshoot breakdowns, manage spare parts, and ensure safety compliance.
- Lead technical evaluations, audits, budgeting, and contractor coordination.
- Ensure adherence to SOPs, PTW systems, and health & safety protocols.

Candidate Profile:

- BSc. in Mechanical Engineering with 10+ years' experience.
- Knowledge of electrical, electronic & instrumentation systems.
- Experience in oil & gas, offshore facilities, and risk management.
- Strong leadership, problem-solving, and communication skills.
- Fluency in English & Sinhalese.

An attractive remuneration package awaits the right candidate.
